Att: Mr. Alan Kaczoroski, Environmental Specialist

Dear Mr. Kaczoroski:

Please be advised that the working manager of this site who reviewed the facility on November 15, 1977 with your inspector, P. June Edwards, is completely befuddled, dismayed and generally upset as to why deficiency # 7:26-2.5.13 has been noted.

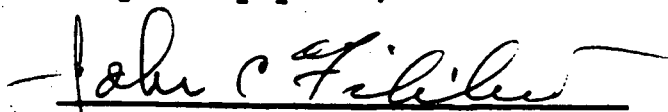

The site was covered, the tree stumps that appear were generated on site and the few scattered papers, in his opinion, certainly did not warrant the notation.

We are at a complete loss as to how a site which has been managed at all times with the intent of the regulations in mind and has held an exemplary record with the department, suddenly has had several deficiencies.

Please be assured that the operator of this site has been conducting himself at all times properly and efficiently. A continuance of the kind of inspections that have been going on could lead to serious attitude problems which, in fact, would certainly not help the department's intent nor the owners of the site.

We would appreciate receiving any additional remarks and/or reports attached to this inspection report and thank you in advance for your anticipate cooperation.

Very truly yours,

John C. Filiberto

JCF:mr
